The building committee for the new Christian church in this city is composed of the following: B. L. Locke, W. H. French, Ross Canthorn, Frank Kelso and E. G. Smith.

The Baptist church at Centralia has donated \$500 to Stephens College at Columbia. This sum secures a life scholarship in the college for the Centralia Baptist church.

Children's day service will be held at Littleby Methodist church next Sunday morning. An interesting program will be rendered. J. R. Snook is the efficient Sunday school superintendent at that place.

Prof. Basil Brewer, one of Mexico's most progressive young teachers, will spend a couple of weeks at his home in Kirksville and then for three months he will pursue a course of study in the Chicago University.

Some Vandalia people, says the Leader, have interests in Joplin mines and have been getting some dividends lately. The sums range from \$8 to \$60 a week. Others who have interests have not yet reached the dividend period.

The Iowa plan of confining confirmed drunkards in an insane asylum is said to be working well. An average of 50 a month, since the law went into effect eight months ago have been sent. The supreme court of the state has held the law constitutional. The drunkard is put in a little different class from the criminal or insane, and at the same time is forcibly protected from his own weakness for liquor. The drink of the inmates is stopped. They are required to work on the asylum farm, and as soon as they are pronounced cured are released. The work is said to be very helpful to their recovery. About 75 per cent. of those sent to the asylum this far have been discharged as cured.

A. H. Payton, near Rush Hill, has 90 acres of corn planted.

The City Council was in regular session Monday night. The north side sewer was the main question under consideration.

The District League of the M. E. church, South, meets with the Auxvasse Methodist church on the 16th of June. Miss Irma Johnson and Mr. Paul Pritchett of this city have places on the program.

Rush Hill wants a second railroad crossing for the town, but the C. & A. objected, urging that the proposed new crossing would be at a point that would prevent the operation of their switches, etc. Judge E. M. Hughes has been appealed to and has granted the railroad a temporary injunction against the town in the matter.

Referring to that prospective new railroad to run from Scotland county thru Monroe county, south to this city, the Paris Appeal thus comments: The Appeal hopes this enterprise will materialize but finds it impossible to enthuse over it, for past experiences have taught us that forways that are dark and tricks that are vain railroad promoters can give a Chinaman a forty-day start and then beat him a block to the finish.

The County Court was in session this week and took a drive with one of the Burlington employees over the route from this city to the Montgomery County line for the proposed new cut-off railroad. The court was assured that the proper precautions against danger of accidents at each county road crossed, and the Court on returning to Mexico Tuesday granted the right of way for the railroad across the county. The representative of the Burlington told the members of the Court that construction of the road would begin at once.

The recent act of the Legislature repealing the law requiring summer institutes provides for compulsory attendance of all teachers on a three days teachers' meeting to be held in September, October or November each year. This law also provides that certificate of attendance for the entire three days filed with the district clerk shall entitle the teacher to a full week's pay when he teaches the other three days in the week. Doubtless an excellent program will be provided for the three days and distributed to all teachers in time for them to make preparation to get the most out of the meeting.

The senior pupils of Hardin College in the Department of Expression gave a very pleasing program Monday night. At the close of the exercises six young ladies received their diplomas: Misses Irma Johnson, Mosceline Carr, Lula Miller, Lucie Clark, Ella Brown and Sara Searcy. The graduates represented Missouri, Texas, Oklahoma and Arkansas. These ladies each gave a recitation. Two cuttings were from "The Battle of the Strong", Gilbert Parker's strongest work. "Jim Fenton's Wedding", from J. G. Holland's Seven Oaks, another selection gave the touch of humor. Elizabeth Barrett Browning's beautiful poem, "Sleep", was well interpreted. "Pavlovna", by T. B. Aldrich, was another selection. "Kentucky Cardinal", by James Lane Allen, and two scenes from "Ingomar", completed the selections. The College orchestra furnished excellent music.

Freak of a Thief.

Louisiana, Mo., May 26.—Two hundred and fifty dollars in gold was stolen Saturday night from the home of Milton Dillender, a grocer who does not believe in banking. The thief evidently became frightened or was troubled by his conscience for he brought the money back last night and pushed it under the door while the family was asleep. Only \$5 was missing and it is supposed that it was spent before the thief changed his mind.

Woman Not Guilty.

Hannibal, Mo., May 26.—The jury investigating the death of Baby Howard Nessenheuer returned a verdict this morning in the effect that the boy died from the effect of carbolic acid poisoning, thru the negligence and carelessness of his mother, Mrs. Alice Nessenheuer.

Mrs. Nessenheuer was on the stand for over an hour this afternoon. She vigorously denied that she had anything to do with the poisoning of the child. The insurance policies amounting to \$36, which were carried on the life of the child, were paid to Mrs. Nessenheuer this afternoon.

TEACH THE BIBLE.

Young Might-be Boodlers Might Then Not "Forget."

Said by the Carrollton Democrat:

What is the reason for so much talk of boodling and violation of law in this century when man really ought to be better and more enlightened than formerly? Case after case is brought to the attention of the public. Not only in this, but in every state in the Union, even in the national government. There must be a reason for all this, and it would be of interest to our readers to read a discussion of the matter.

In our opinion the real cause of the matter is that in this country our boys and girls are taught everything in the public schools except the one great matter that gives strength and backbone to character. The teacher may preach morals to the pupils from one year's end to the other, and yet not be able to raise the moral standard. Morals are based on a human standard, and no matter how high a standard he may set for himself, there always comes a day when he fails, either thru temptation or in a belief that tho he is doing wrong thinks he is doing right.

A statement like the above may seem strange, but it is a fact and if men rely on their own idea of right and wrong this country will in no time be on a low plane of morals.

Now, we train our children in some books, in the book of books they do not receive any instruction. A course of study for the grades, high schools, colleges and University in the Bible could be arranged, so as not to teach theology, but the plain practical truths of the text book, having always in the center of the picture Jesus Christ and the great God of the Universe—showing that there must be a foundation or rather a backing for the good in the world. This would raise our people to a higher plane of civilization. Men and women would abhor evil and seek to do good.

To-day vice is flaunted in every place until the lines of Pope have literally come true in our country; Vice, a monster of such frightful mien, To be hated, has but to be seen. Seen too oft, we become familiar with its face:

We first endure, then pity, then embrace. If we would make a nation of ourselves we must raise the standard of morality, and to do this we must commence at the bottom and day by day drill into the minds of our children the great principles of the Bible and show back of it all the punishment that comes to those who do wrong.

Is there any good reason why any person should object to this method of education, for the results would be to make our children better and that is the aim of every parent?

The County Court, we understand, has let the contract for the building of a vault for the records of the Probate Judge's office. It is an improvement that has been needed for years. We understand the Court at the regular meeting the 12th of next month will order other needed and substantial improvements about the Court House.

The Farber Forum doffs its hat and makes its politest bow to Judge Botts and his charming bride, with the heartiest wishes for their happiness and success and a life-long honeymoon.
